

LEADERSHIP DEVELOPMENT

Optimize the Chemistry in your team to heighten Engagement, Performance and Retention

**We are thrilled to now offer extensive Leadership Development programming
customized to suit the needs of your team!**

Chemistry will develop a Leadership Program that will enhance the performance of your team to create a positive work culture.

A sample of topics we can include in your customized package:

- Mental Fitness for your leaders and team
- Developing the leadership style your team needs
- Performance Management best practices
- How to motivate team members with different personality types
- How to leverage diversity as a competitive advantage
- Learn how to guide your team through functional conflict for better quality decisions and innovation
- Protect your investment with onboarding done right
- Motivation, goal-setting and rewards programs
- Team, Group and Individual Coaching programs also available.

Our Leadership Development service offering is delivered by
Chemistry's Associate Consultant, **Ashli Komaryk**, MBA, ACC, Certified Organizational Coach
